MEMORANDUM

TO : All Regional Directors/Assistant Regional Directors/
Regional Operation Division/District/Extension Offices/
Licensing Centers/DLRO Heads
All Employees Concerned

FROM : EDGAR C. GALVANTE
Assistant Secretary

SUBJECT : ONLINE CONNECTIVITY OF PRIVATE MOTOR VEHICLE
INSPECTION CENTER (PMVIC) AND ENROLLMENT OF
MVITs TO THE LTMS

DATE : 21 May 2021

The Land Transportation Office (LTO) issued *Memorandum 2020-2241* dated 29 December 2020 providing the operating guidelines for Private Motor Vehicle Inspection Centers (PMVICs). *Section II* hereof states:

“Data transmission to Land Transportation Management System (LTMS) must be done in real time by the VASP and should conform to the standards and guideline set by the Department of Transportation and Land Transportation Office; and where applicable, to the Department of Environment and Natural Resources and the Department of Trade and Industry.”

Further, *Section VII* of the said Memorandum provides that:

“A registered MVIT starts the vehicle inspection by logging into the system using the biometric scanner only once for the entire duration of the inspection of a particular vehicle; this will enable the facility to track the performance of the MVIT and informs the Land Transportation Management System that a vehicle inspection is about to occur.”

The aforementioned provisions ensure that the standards and limits of inspection results are strictly followed and that PMVICs only employ MVITs who meet the required minimum standard qualifications.

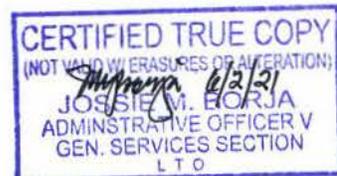

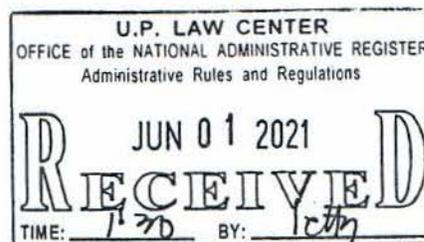

However, LTMS features to implement these validation are currently turned off due to some issues in the initial operation of the PMVICs. Moreover, the LTMS does not validate the *Pass or Fail* result of the PMVIC but only maintains a record of the uploaded result.

In order to achieve LTO's mandate that only road-worthy vehicles are allowed to register and enable the LTMS to perform automated validations, the following measures are hereby directed:

1. Starting 01 June 2021 until 15 June 2021, all PMVICs shall enroll their qualified MVITs to the LTMS in the nearest LTMS offices. The list of current LTMS offices is attached herewith as *Annex "A"*;
2. By 16 June 2021, all PMVICs must have a working online connectivity to the LTMS;
3. Implement the validation of the MVIT credentials against LTMS:
 - a. At the start of vehicle inspection, the enrolled MVIT shall log-in to the PMVIC system using a biometric scanner;
 - b. The captured MVIT fingerprint shall be validated against the LTMS data via online connectivity. This is to ensure that only qualified and enrolled technicians perform the actual inspection.
4. Implement the automatic upload of final inspection results and the validation of the LTMS of the inspection results against set limits and standards in the system. The LTMS shall return a message of Pass or Fail to the PMVIC system; and
5. Assignment of **Mr. Carlos Vasquez**, MID personnel, as the *Activity Lead* and *focal person* for any PMVIC concern to ensure coordination and implementation of these directives.

For strict implementation and compliance.

EDGAR C. GALVANTE
Assistant Secretary

ANNEX A - LIST OF LTO SITES NEAREST PMVIC

NAME OF NEAREST PMVIC	REGION	NAME OF NEAREST DISTRICT OFFICE	DO/DLRO NO.
